Extract from LGPS Local Pension Board guidance:

“6. Board Knowledge and Understanding

Legal requirements

6.1 In accordance with section 248A of the 2004 Act, every individual who is a member of a Local Pension Board must:

6.1.1 be conversant with:

6.1.1.1 The rules of the LGPS, in other words the Regulations and other regulations governing the LGPS (including the Transitional Regulations, earlier regulations and the Investment Regulations); and

6.1.1.2 Any document recording policy about the administration of the Fund which is for the time being adopted in relation to the Fund, and

6.1.2 have knowledge and understanding of:

6.1.2.1 The law relating to pensions; and

6.1.2.2 Such other matters as may be prescribed.

6.2 A Local Pension Board member should be aware that their legal responsibilities begin from the date they take up their role on the Board and so should immediately start to familiarise themselves with the documents as referred to in paragraph 6.1.1 and the law relating to pensions.

6.3 In accordance with section 248A, the knowledge and understanding requirement applies to every individual member of a Local Pension Board rather than to the members of a Local Pension Board as a collective group.

General Principles

6.4 Administering Authorities should also take account of this Guidance to support them in understanding the requirement and to enable them to help members of the Local Pension Board to meet their knowledge and understanding obligations.

6.5 Administering Authorities should make appropriate training available to Local Pension Board members to assist them in undertaking their role and where possible support all members of the Board in undertaking that training. Where Local Pension Board members do not demonstrate their capacity to attend and complete training then the Administering Authority may need to consider whether that Local Pension Board member has the capacity to undertake their role on the Board. See paragraph 5.31.7 for further information.

- 6.6 Knowledge and understanding must be considered in light of the role of a Local Pension Board to assist the Administering Authority in line with the requirements set out at paragraph 3.27.
- 6.7 However, members of a Local Pension Board clearly need to understand the duties and obligations of the Administering Authority, including funding and investment matters, in order to be able to assist it.
- 6.8 Once created, a Local Pension Board should establish and maintain a policy and framework to address the knowledge and understanding requirements that apply to its members. Where the Pensions Committee has an existing knowledge and understanding policy already in place, it may be sensible to see if this could be incorporated to cover both the Pensions Committee and the Local Pension Board to avoid unnecessary duplication. However the knowledge and understanding requirements of a Local Pension Board and a Pension Committee may differ, especially given the former's statutory requirements.
- 6.9 The Local Pension Board may wish to designate a person to take responsibility for ensuring that the knowledge and understanding framework is developed and implemented. This could be a member of the Local Pension Board or an external person, for example an officer of the Administering Authority or a professional adviser.

Knowledge and Understanding for Pension Committee Members

- 6.10 The legal requirement for knowledge and understanding for members of a Local Pension Board does not apply to members of a Pension Committee. However, the requirement serves as a useful benchmark for the knowledge and understanding that a member of a decision-making Pension Committee should have.

The Regulator's Code of Practice

- 6.11 The issue of knowledge and understanding is dealt with in the Regulator's Code of Practice (see paragraphs 34 to 60 of the Code of Practice). This Guidance is intended to reflect the principles of the Code of Practice and apply them in a LGPS context.

Degree of Knowledge and Understanding

- 6.12 Being conversant with the rules of the LGPS and any document recording policy about the administration of the Fund means having a working knowledge (i.e. a sufficient level of familiarity) of them so that members of a Local Pension Board can use them effectively when carrying out their role of assisting the Administering Authority.
- 6.13 In particular members of a Local Pension Board should understand the rules and documents in enough detail to know where they are relevant to an issue and where a particular provision or policy may apply.

- 6.14 In order to assist the Administering Authority, it is implicit that members of a Local Pension Board understand the duties and obligations that apply to the Administering Authority as well as to themselves.
- 6.15 The rules of the LGPS would include:
- 6.15.1 The Regulations;
 - 6.15.2 The Investment Regulations; and
 - 6.15.3 The Transitional Regulations (including any earlier Regulations as defined in the Transitional Regulations to the extent they remain applicable),
- and any statutory guidance referred to in these regulations.
- 6.16 A Local Pension Board should prepare and keep updated a list of the core documents recording policy about the administration of the Fund and make sure that the list and documents (as well as the rules of the LGPS) are accessible to its members.
- 6.17 Part 1 of Schedule B of this Guidance contains a list of documents which are likely to be regarded as recording policy about the administration of a Fund. This list should not be relied upon as being definitive and actual lists are likely to vary from Fund to Fund. This Schedule has been added to this guidance to assist Administering Authorities and Local Pension Boards to quickly identify documents which record policy about the administration of a Fund.
- 6.18 Members of a Local Pension Board should also be aware of the range and extent of overriding law which applies to the LGPS and have sufficient knowledge and understanding of the content and effect of that law to recognise when and how it impacts on their role, responsibilities and duties.
- 6.19 Part 2 of Schedule B of this Guidance contains a summary of some of the key areas of law relating to pensions generally and the LGPS in particular. This summary should not be relied upon as being a definitive list of all the areas of law that members of a Local Pension Board need to know about and understand. This Schedule been added to this guidance to assist Administering Authorities and Local Pension Boards to quickly identify key areas of law that may be relevant.
- 6.20 Given the role of the Local Pension Board to assist the Administering Authority, members of a Local Pension Board should have sufficient knowledge and understanding to challenge any failure by the Administering Authority to comply with the Regulations and other legislation relating to the governance and administration of the LGPS (which should be interpreted as including the Regulations and other legislation relating to investment and funding matters) and/or any failure to meet the standards and expectations set out the Code of Practice.

6.21 Members of a Local Pension Board should have a breadth of knowledge and understanding that is sufficient to allow them to understand fully any professional advice the Local Pension Board is given. Members should be able to challenge any information or advice they are given and understand how that information or advice impacts on any decision relating to the Local Pension Board's duty to assist the Administering Authority.

Acquiring, Reviewing and Updating Knowledge and Understanding

6.22 A Local Pension Board's knowledge and understanding policy and framework should provide for the acquisition and retention of knowledge and understanding for its members.

6.23 Members of the Local Pension Board should commit sufficient time in their learning and development alongside their other duties. Training is an important part of the individual's role and will help to ensure that they have the necessary knowledge and understanding to effectively meet their legal obligations to assist the Administering Authority.

6.24 Members of the Local Pension Board must be aware that their knowledge and understanding responsibilities technically begin from the date they take up their post. Therefore, members should immediately start to familiarise themselves with the Regulations, key Fund documents and relevant pensions law.

6.25 The Administering Authority should offer high quality induction training and should provide relevant ongoing training for Board members. This could be included in the normal training programme for members of the Pensions Committee as well as a specific training programme for the Local Pension Board.

6.26 It may also be useful for the Local Pension Board to have shared training events with the Pensions Committee and/ or Pension Committees and Local Pension Boards from other Funds to share knowledge and experience.

6.27 There must be a practical recognition that it will take a newly appointed member a reasonable period to attain the required full level of knowledge and understanding (see paragraph 6.1). Consideration should also be given to permitting newly appointed Local Pension Board members to overlap with the outgoing member to allow them to shadow that Board member for at least one Board meeting (where possible) as well as providing them with high quality induction training.

6.28 A Local Pension Board's knowledge and understanding policy and framework should require its members to undertake a personal training needs analysis and regularly review their skills, competencies and knowledge to identify gaps or weaknesses.

6.29 Part 2 of Schedule B contains examples of areas of knowledge and understanding that a member of a Local Pension Board might be expected to have. These

examples may assist a Board member in undertaking a personal training needs analysis.

- 6.30 A personalised training plan should then be used to document and address these promptly. This would be supported by any person the Local Pension Board has designated to implement the knowledge and understanding policy and framework.
- 6.31 Learning programmes should be flexible; allowing members of the Local Pension Board to update particular areas of learning where required and acquire new areas of knowledge in the event of any change. For example, members of the Local Pension Board who take on new responsibilities in their role will need to have knowledge and understanding which is relevant to carry out those new responsibilities.
- 6.32 Learning programmes should deliver the appropriate level of detail to ensure that Local Pension Board members have the required level of knowledge and understanding specific to the LGPS.
- 6.33 The Regulator will be providing an e-learning programme which has been developed to meet the needs of all members of public sector scheme pension boards, whether or not they have access to other learning. It is not anticipated that this e-learning module alone would provide the sufficient level of LGPS specific training required for Local Pension Board members.
- 6.34 Members of a Local Pension Board and the Administering Authority should investigate what other third party learning tools and courses are available both for initial training requirements and any ongoing training needs identified for members of the Local Pension Board. Administering Authorities and Local Pension Boards should contact relevant advisors to identify any training resources being made available. For example the LGPC Secretariat will be providing training events for Local Pension Board members with details available from their website.
- 6.35 Once a Local Pension Board is in operation and new appointments are made in the future, mentoring by existing members could also be considered. This could also help to ensure that historical and scheme specific knowledge is retained when members of a Local Pension Board change.

Demonstrating Knowledge and Understanding

- 6.36 The Local Pension Board should keep appropriate records of the learning activities of individual members and the Local Pension Board as a whole. This will assist members in demonstrating their compliance, if necessary, with the legal requirement and how they have mitigated risks associated with knowledge gaps. For example a good external learning programme will maintain records of the learning activities of individuals on the programme or of group activities, if these have taken place, which can be provided to the Local Pension Board.

Action Points:

- Once established a Local Pension Board should adopt a knowledge and understanding policy and framework (possibly in conjunction with the Pensions Committee if appropriate).
- A Local Pension Board should designate a person to take responsibility for ensuring that the knowledge and understanding policy and framework is developed and implemented.
- The Administering Authority should offer access to high quality induction training and provide relevant ongoing training to the appointed members of the Local Pension Board.
- A Local Pension Board should prepare (and keep updated) a list of the core documents recording policy about the administration of the Fund and make the list and documents (as well as the rules of the LGPS) accessible to its members.
- Members of a Local Pension Board should undertake a personal training needs analysis and put in place a personalised training plan.”
